

Woodside Backyard Habitat

Award Criteria

The Backyard Habitat program acknowledges honorees with a gift of a three-foot tall forged metal sign to be displayed near the entrance to their property.

1. The portion of the property under consideration should be maintained in a natural state, dominated by native vegetation and free of nonnative invasive plants.
2. Unfenced or wildlife friendly fencing, such as open post and rail, are important criteria for this award.
3. Streams, including designated stream corridors, intermittent and ephemeral streams, ponds, marshes etc should remain in an open, natural condition (including a clear uninterrupted riparian buffer zone dominated by native vegetation) and accessible to wildlife.
4. Where applicable, the habitat area should abut designated open space or similar natural areas on neighboring properties.
5. Highest value is applied to the opportunity to establish habitat connectivity and access to natural water sources, along with the expression of the rural aesthetic of the Town of Woodside.

Properties are evaluated only after an application is submitted to the Woodside Environment: Open Space, Conservation & Sustainability Committee. If you are interested in receiving this award or nominating a Woodside property, further information and an application form are available at Town Hall or <https://www.woodsidesidetown.org/boardsandcommittees/backyard-habitat>.

Woodside Backyard Habitat

Application for Backyard Habitat Award

WOODSIDE BACKYARD HABITAT

Name(s) _____ Phone _____

E-mail address _____
